OBJECTIVE

An ex-chef that recently changed profession due to a newly found passion for web and software development.

Zend Certified Engineer, I specialise in PHP and Laravel framework. Familiar with modern design patterns, MVC architecture, and building RESTful APIs. Looking forward to further develop skills in Laravel Framework and enhance my technical skills in the development of web and software applications.

I'm passionate about learning new technologies and consider my self to be a fast learner and look forward to working in a team, together with other developers.
